Dear Henry,

What I asked you to please try to see if you could get from the ABA was not a presentation by the ABA.

It was to the ABA, intended as a demonstration of what can now be done for lawyers with the modern wizardry.

Thanks just the same. I expect the address of the outfit that presented it and will ask them.

The book entirely misrepresents the whole thing, I'm told by a friend who was there for the demonstration

Many thanks and best wishes,

Your friend

Harold
